

Reel-EZ Trailers Patent Pending

Engineered Smarter So You Don't Have To Work Harder!

Reel EZ Trailers are engineered with production and savings in mind. The EZ35 Reel Trailer is a long term solution helping you meet and exceed the most aggressive company goals and expectations when it comes to material handling. **The only cable reel trailer on the market that can load and unload a reel using the tow vehicle.**

- Increase Production Rates - Faster Reel Loading/Unloading
- Less Maintenance vs. Similar Hydraulic or Electric Trailers
- Decreases Chance of Injury - Safely Loads/Unloads Reel
- No Fork Lift Needed – One Person Operation Possible
- Cost Less and Loads EZer vs. Traditional Reel Trailers

Sturdy construction on a lightweight frame; less stress on work vehicles

No hydraulic, electric or forklift assistance required

Simple, safe loading and unloading

Faster vs. traditional hydraulic or electric trailer
